LOIS WITH THE MONTGOMERY NEWS, 11/8/2026

Monday afternoon I was watching my stories when something exploded, made me jump it was so loud. Sylvester and Son huge dump truck has been going by during the day and it had just come around the corner here by me and was going around by the Post Office when one of the big dual wheels exploded, Hunter was driving the loaded truck and stopped just a few feet up in the parking lot. He called for help, and help came suddenly. The dump truck was equipped so,they blew the tire up which took some time, then they left the Village, they were in hopes to make it back up West Hill to their property, and fix the tire, and perhaps unload the truck. It's Tuesday morning and the truck is fixed as it's down with the load to be delivered on Black Falls Road. I introduced myself and told them I was going yo write this up in my News. They didn't mind, it was interesting to me. Today they came by the second time with dump truck and a a long trailer to go and haul their excavator to another work place. They are a busy Sylvester Business. Later I see Paul and he said they made it home ok and got the tire repaired that evening once home.

Our new neighbor that bought Gila's house near the Church has sadly said she is putting the house up for sale. She had the property put up for sale and it sold within a few days. Just to many complications as Winter is coming on..she just thought it would be best for her if it sold. She told us a nice lady made the purchase. We liked Tessa very much and she really like Montgomery, but it was not an easy decision.

Wednesday morning Sue Peters was on her way to Troy to pick up her repaired sewing machine, she asked me to come along with her. I did. Then when we returned it's Bowling Day and we were off to meet up with Elsie, Patty and Carol. We get to the B-alley a few minutes for practice time. Today we had a part of the Road Runner Team along side the Turkeys. There was lots of humor and laughter making it a fun time. November 4th.. Teresa Begnoche had a Birthday Dinner for her son Marcel prepared his favorite Shepherds pie, and his wife April, friend Brent enjoyed celebrating with him. It was also my Nephew Mark Patterson 60th Birthday, when I called him at his home in Tennessee, his Family was celebrating there with him. Congratulations!!!

Thursday it was our Senior Citizens dinner prepared by Chef Joey Buttendorf. She had prepared a fresh veggie salad, Turkey burger mashed potato pie, green beans, and pumpkin pie for dessert. Joey fixed up several containers of the food for each of us to take some home or to deliver to shut in. It was taken and used wisely.
After our dinner was over a few of us went to Sue Peters Quilting Circle, there were 7 ladies that came. We all go down to the sewing room, where we meet to have our ShowNtell, and there were three new Quilts coming together, which were worked on this afternoon. Cindy Gilchrist

told us the goal selling raffle tickets on a Quilt has been met and soon the winning ticket will be drawn. The money will go to benefit the Food Shelf “HEART FULL KITCHEN” I hear new things will be going on there very soon, Montgomery News will be notified. Ok back to the Quilting Circle, it was a busy afternoon of sewing, pressing and viewing the beautiful Quilts Sue Peters had completed. Elizabeth Duffy had brought in cake to share, Sue had homemade candy that was given to her and she was sharing it. It was a gorgeous afternoon to work inside, and we worked until 4 p.m.

Friday..I had been wanting to clean our sidewalk that was colored with our foliage and rained on several times became a mess. My sidewalk is precious to me, I like to have it so everyone that walks on it feels safe. I took my rake and went to work, I had 8 big piles on the street, I took my wheel barrow and filled it up. I just thought to myself where am I going to put all these wet leaves. The Town Crew came one year when I had piled up the gravel on the street, came and took it away. SOO, I called over to them and told them what I had done, could they come with their equipment and take it away for me. They had just come in for their dinner break, I was told, Yes they would come and help me. NO Problem they came with their equipment, bucket loader and with in 10 minutes it was loaded and away it went. I Thanked David Tanner very much for coming to help me. Yes, it was just the leaves on the sidewalk, not on any lawn. This is the month to be Thankful and I am Thankfully pleased to have this done. WE have had so many leaves every where.

11/8…Our Church Service was prepared by John Gorton and his sermon was entitled “ Keep Awake.” John sends his bulletin to Merle and Merle makes copies for everyone, brings them to Church to pass out to everyone. To day we had a visitor come and join the Service with us,and he made 13 in attendance. This week our organist joins many of us in the eighty group, So next Sunday he will have left the young seventies. We all signed a card to give him as he was leaving for the day. HAPPY BIRTHDAY PATRICK…11/13/2026.,,,From the News Room. LLL

11/8/2026
Our Community is saddened by the death of Chris Carr. We send our Sincere Sympathy to all his Family and all their Dear Friends. Rest In Peace Chris!! God Bless You All!!

11/11/2026..Dear God creator of Peace, We thank you for the men and women who served our Country with courage and selflessness, Bless our Veteran’s with your strength, heal their hidden and visible wounds, and grant them Peace and Comfort, Now and forever. Amen

Happy Birthday to: Roger Chauvin, Madison St. Onge 11/ 15; Jordan Corse, Anwyn Jones 11/17; Harvey Chaffee, Alysa Vallender, Carey White 11/19; Mack Bolog, Marlee Sylvester 11/20; Jeff McGovern, Natasha Baker 11/21.

Jokes of November **1. Why is Black Friday considered a Happy November Day? Because the next day is a sadder day. 2.Why does everyone think that November is a pessimist? Because it always starts things off with a NO. 3. What is the useless key? A Turkey.
4. Why did the turkey join the band? He had the perfect drum sticks.***

Yes, its November, the beautiful Fall foliage we all enjoyed has fallen to the ground and turned brown and mushy, Today while out the geese were circling and honking away, and headed back North, or maybe they saw a corn field that has been cut down and a good place to stop and fill up. I heard on the news a bird ate so much it became, too heavy to fly. This is all folks, have a wonderful week.. Love To All…. Sunday started out foggy and cool..a mist in the air as I came home from Church. It's afternoon and no change today..40 seems to be our temperature
