

LOIS WITH THE MONTGOMERY NEWS..JULY 12, 2020

Lois has not felt well this week, and I am sorry I have not heard much of any news, BUT, I know everyone that enjoys this column likes to read something. I have shared a few of my writings with you and I picked this one out to share with you. Enjoy!!

Vermont, Vermont our beautiful state, Where the rooster crows early, and the farmer works late.

Where democracy of Town Meetings are held every year; licensed hunting of black bear, moose and deer.

Great fishing for salmon, bass and brook trout, Many wonderful spots for camping out.

Historical buildings and antiques of old. Short summer of warmth, long winters of cold.

Vermont, Vermont our beautiful state, Children swinging on a tire or an open gate.

From one room schools to the modern ones of today; Where the golden rule is the law to obey.

In the Spring the sap flows and wild flowers bloom; In the Autumn leaves color and a big harvest moon.

Then the snow comes bringing a winter wonderland; The roads will need plowing, salting and sand.

Vermont, Vermont our beautiful state, With many cozy Inns to cuddle with your mate.

Rolling hills, green mountains and lots of fresh air; A few farm auctions and lots of country church sales.

Beautiful Lakes, and ponds for boating fun; We're close to Boston for a Marathon run.

We have skiing, skating, and riding of snowmobiles, An array of fun is seen in our farmers fields.

Vermont, Vermont though considerably small, there is something here for one and all. By Lois..1999

****Quarantine has turned us into dogs, We roam the house all day looking for food. We are told "no" if we get too close to strangers, and we get really excited about car rides.**I swear my fridge just said "What the hell do you want now?"** When this is all over, What meeting do I attend first, weight watchers or AA?***

Hope this finds everyone keeping safe and staying well.. M.L.T.A.
