

MONTGOMERY CONSERVATION COMMISSION MISSION STATEMENT

To promote land as a community to which we belong.

“The land ethic simply enlarges the boundaries of the community to include soils, waters, plants, and animals, or collectively: the land...When we see land as a community to which we belong, we may begin to use it with love and respect...That land as a community is the basic concept of ecology, but that land is to be loved and respected is an extension of ethics.”

-Aldo Leopold
