- Old Business
 - a. Communications:
 - I. Update on Alternative Meeting with Dubois & King; grants and local contractor input. Tim Murphy reviewed the study and advised us:
 - Don't raise the bridge as high as the study suggests so that the ramps will not be so long
 - Place bridge on crushed stone/gravel and concrete block for additional cost savings
 - He estimates approximately \$25K in lumber for the bridge (plus roofing materials)
 - In Tim's professional opinion, the old bridge could be restored and relocated for roughly \$100K
 - He recommended that we site the bridge and to let him know when that was scheduled
 - He suggested pursuing a grant with the National Endowment of the Arts
 - He anticipates attending our next meeting

II. Future Fundraisers have been tabled for the time being.
