

LOIS REPORTING FROM MONTGOMERY MARCH 7, 2021

What a gorgeous Sunday afternoon, the sun is shining brightly into our living room, Hunter the cat is lying in the sunshine as we have the double doors open, letting the warmth of the sun heat the living room and we shut down the thermostat for a few hours. Very Nice!!! Maggie Elkins told me yesterday that she was going to have her daughter Kelly and son Clay in for Sunday dinner. Lucky kids!!! I had a want for sugar on snow today and after our dinner, I put some syrup boiling and Sonny went out and got snow and we did have some and then made the rest into maple fudge/candy. YUMMMMMY! Should be a nice week for sugar makers, if the weather cooperates as it has been predicted.

Our Town Meeting Day was the coldest day we have had all winter long so far, that brutal north wind howled around all night, disturbing just about everyone's sleep. I knew something was coming the way Hunter was acting, he was restless and run and chased through the house most the day, he particularly takes my things to chase around.
