

LOIS WITH THE MONTGOMERY NEWS.. JANUARY, 23, 2022

Sorry folks no news from Montgomery this week, but just to let you know that I am here and still alive.

Just keep on reading and find out, Lois wants to keep you all happy and feeling fine.

We all hear daily about Covid and this pattern of terrible weather,

We all hope for Spring, warmer weather and this pandemic will go away for ever.

I enjoy my computer and received joke tickets from our daughter Veronica for two.

Gave us permission to stay home –do nothing to help avoid catching the flu.

All these thoughtful gifts of emailing, phone calls are a blessing each day.

Please remember someone wants to hear from you in a friendly way.

God Bless you all and really and truly keep safe,

Remember the mask helps to be worn, on your beautiful face.

\*\*A couple are celebrating their 50<sup>th</sup> anniversary and he mentions how wonderful it has been and that they never were in arguments, how did they make it through all those years. She said every time I would get mad at you I would make a doily to calm me down. A few days later the couple decided to clean a closet and he came upon a box with one doily and \$25000 inside. He was excited to see that much money and only one doily that met she had not been mad very many times. He asks his wife about what he just found, She said, Well the doily is just from last week when you forgot to pick me up at the Doctor's office and the money is from selling doilies for the past fifty years.\*\* What was Adam and Eve's biggest problem in their marriage? They could never agree on who wore the PLANTS in the family.\*\* That's all and now hopefully I will get some news for next week. M.L.T.A.
