Natural Navigation – with Elliot Cluba

This workshop will discuss the details of navigation using the sun, moon, stars, trees, and other animate and inanimate objects that have guided our way since the beginning. Includes some compass work, navigation games, and stories that inspire our child-like and problem-solving attributes and the ability to anchor in received knowledge.

Date – Wednesday, June 18th, 5 to 7 PM

Location – Jewett Property Town Land

(meet at the Montgomery Village water plant, Fuller Bridge Road)

Reading the Landscape – with Elliot Cluba

This wilderness walk will look at track and sign, as well as markers that show the short- and long-term history of animal and human behavior, weather patterns, ecological adaptations, and information about our local environment that can stimulate curiosity, awe of nature, and a desire to gradually untie our knots of domestication and overconsumption.

Date – Wednesday, August 20th – 5 to 7 PM

Location – Lochers' Beaver Ponds area

(meet at 400 Gibou Road)

Sponsored by Montgomery, Enosburg, Richford and Bakersfield Conservation Commissions

Supported by Montgomery Center for the Arts and Play Every Town
