

## **LOIS WITH THE MONTGOMERY NEWS, APRIL 12, 2026**

4/7..The usual Monday morning duties, then I noticed the Electrical Company across the street from me. I went over to identify myself, thought they were checking on the electricity, as I had reported to our Town SelectBoard, during the Christmas season there was no electricity at the pole to plug in lights. This guy I talked to had no idea about that, they were here to look over the situation as they are going to replace the existing pole with the street light. Then we can check the other electrical outlets while here. Monday we had snow squalls throughout the day..leaving us with new 3 inches of snow it turned cold and we had a snow cover for another few days. That went away and we had another snow cover come but that did not last long.

I guess the March Madness season is over the Men “Michigan Wolverines,” won their first title since 1989, they were playing the UConn, and the score was..69-63. The Women ..UCLA defeated South Carolina 79-51. This win was their first . This tournament was very exciting to many people. The other excitement to many has been the excitement of Artemis II splashing down April 10, after a 10 day journey around the back side of the moon, the Astronauts were close enough to view by just looking out their window. There will be all kinds of new photos for us to see in up coming News. What amazed me was the accuracy of this event, and the speed it was traveling. The four that trained for this mission and returned safely.

Tuesday, kept busy doing things that distracted me from TV, and my TV shows that I watched were, well entertaining to me, wild animal zoo. I Just had to keep my mind on watching something that was amusing fun to watch, The Iran war was not anything that was pleasing to hear about, no breaking news, etc. The end of the day we received word that Skylar had her first shots and that made her cry, very up setting to all of us adults that Love her. Grammy Penny went down to comfort her, she is an amazing Grammy. Grammy P had Skylar come up Saturday, and we both took turns caring for her and she stayed over night with Grammy, exceptional at her age to be so good. Sunday morning when Grammy came downstairs with Skylar they both were exciting to be together and loving every minute. I got to feed Skylar before going to Church. (David & Destiny just came at 2 to bring her home)

Our Church Service was wonderful, John Gorton came and officiated the sermon entitled “Believe.” It was wonderful to see Richard and Diane McAllister come up the stairs into the sanctuary to join us today. Richard has had a medical problem that needed attention and hopefully he will be good as new soon. Sandy Bowman is doing fine since her knee surgery, her daughter was with her for a few days and once Sandy felt like she could be on her own, Jill went home. John Cluba had surgery this past Wednesday afternoon and is home recuperating with the help from son Elliot, Lynda is also coming along from her injuries but still has to be mighty careful, not to put any weight on or try to walk, keep doing well as the healing is doing great. Merle Van Gieson is doing well and he has a few more weeks of healing before going for a walk. So far this Sunday has been a nice day, to get

outside, it has warmed up nicely. Grammy Penny took Skylar out for a walk, right now she is showing Skylar pictures of herself, that is cute...She notices things around the house and enjoys seeing bright colors. She has the bluest eyes..a precious little angel.

Happy Birthday to.. Darlene Marrier 4/19; Arya D. Marshall 4/20; Karen Soule 4/21; Amy Hurlbut, Joshua & Branden Ryea 4/22; Beth Crane, Tara Ryan 4/23; Michael Sheltra 4/24; Susan Auclair4/25  
A Dear Friend of mine in Mass. D. Williams 4/25; Howard King, Brent Godin 4/26.

Anniversary wishes to: Sonny & Ann Cote 4/20;

\*\*\*A man was sitting on the edge of his bed watching his wife look at herself in the mirror. Knowing that her Birthday was near, He asked, what would you like for your B/day, She answered I would like to be eight again, still looking at herself in the mirror. On the morning of her B/DAY he prepared her breakfast of coco-pops, orange juice, and a toast. Then later he took her to the theme park and she had rides on all the daredevil rides, had ice cream, fries, etc. Then he took her to the movie and brought pop corn and a drink for her. Once home he asked her how she had enjoyed being eight again; She said you idiot..I met to be a size 8!!! 2. How can you make the sky prettier? With a rainbow. For now this is all folks,a nice week of weather coming our way..I have plans to enjoy & rake my lawn of dead leaves. I have got it started..but lots left to do. Love to All.
